

# Powerful Presentations™

## overview

Powerful Presentations™ is an experiential workshop that teaches participants to fully engage their audience by using professional speaking techniques. Focusing on structure and presentation skills, this 2 day program can include six digital-recordings of participants' live classroom presentations.

Through a combination of instruction, demonstration and practice, participants finesse their delivery skills. Instructor feedback after each presentation paves the way to greater mastery. By the end of the workshop, participants feel increased confidence and can deliver dynamic presentations to even the most challenging audiences with ease.
